#### History Of The Company

Somewhere around in **1959**, a visionary man **Mr. Nathubhai Dayaljibhai Desai**, having worked with pharmaceutical company called "Alarsin" saw the dream to be an entrepreneur and help bring some transformation in lives of farmer brothers and also make some positive difference to dumb Animals.

To translate this dream into reality **Herbo Minerals** was founded by **Nathubhai** in around **1959**. He started job work for Alarsin at amalsad which was his own earned premises having shared good relations with his employers.

In the initial stage. Herbo Minerals opted for and got license for Ayurvedic drug manufacturing and started producing Leptadin as well as various others human medicines. They also supplied raw material of various human medicines to Alarsin. Since 1959 to 1988 this association lasted successfully, but due to cancellation of agreement deed between" Herbo Minerals & Alarsin" Mr. Nathubhai diverted into manufacturing of Ayurvedic veterinary medicine. He got the drug license in 1988 & his new company's name was "JIVANTI PHARMACEUTICALS" which mainly had two products. 1) JIVANTI COMPOUND for cow and buffalos, 2) **RESPICURE** for poultry animals. During this tenure the major circulation of this drug was in many states of India. The major clients of JIVANTI were Dairies. Veterinary Doctors, Veterinary shop Owners & Direct Users. The amazing thing is that it started on small level and today it has reached to a distinguished consign with a nationwide presence with incredible recognition among people, based at Rajpipla, Gujarat.

Mr. Munjal Desai Son Of Mr. Rajnikant Desai now actively pursuing to take Jivanti Pharmaceuticals to new heights after the painful demis of Mr. Rajnikant Desai's on 27th April 2011:. Mr. Munjal Desai aspires to put this Company in the global market and leave distinguished impact while performing its social responsibility of well-wisher of farmers and dumb animals. The same is strongly backed by team Jivanti in terms of hard work and remain focused towards Customer need.
